¹ The benchmarks are 50th percentile data from "The Sourcebook: The Comparative Performance of U.S. Hospitals", published by Solucient, LLC, and are all national groupings except for New England.

² Rural Not-For-Profit. The grouping includes rural not-for-profit hospitals in the U.S. having a number of beds between the number shown.

³ Standard and Poor's, the bond rating agency. The bond rating is one indicator of how likely it is that a hospital would be able to borrow money.
